DGF-P 2001 CONVEYORS

Each serial number is unique to that specific conveyor and provides mk North America with complete order details.

The conveyor serial number is located on the frame at the drive end of the conveyor; it’s affixed to the black drive train cover which has the gear motor mounted to the back plate. If there is no black drive train cover, the serial number is affixed to the frame. See section 2 for more details.

Your serial number is also recorded above.

Ensure the serial number tag above matches the serial number on your conveyor.

1 GENERAL INFORMATION

1.1 Foreword

Congratulations on purchasing a conveyor from mk North America, Inc., a leading manufacturer of quality low profile conveyors. Our more than 25 years experience in material handling allows us to offer robust solutions with long life and reliable operation. We strive to make the best products in the industry even better and we are committed to making sure our customers get top notch support before, during, and after each and every sale.

1.2 The importance of reading your manual

Inside this manual you will find the instructions on how to set up and maintain your mk conveyor properly, as well as maximize its performance. Please take the time to read this manual and familiarize yourself with these set up and maintenance instructions. These instructions will help assure a long product life that requires a minimum amount of service and keeps your conveyor working at its maximum capacity.

1.3 If you need assistance

If you need assistance there are a variety of ways to get it. You can contact our customer service team Monday through Friday, 8am-5pm (Eastern Time) at 860-769-5500. You can also visit our website for additional information and technical documentation at www.mknorthamerica.com. In addition, your local representative can provide support in many instances.

1.4 When your shipment arrives

1) Check your shipment
   a) If you have not already done so, visually inspect the shipping crate/container for any damage caused during shipment.
   b) Carefully unpack the crate/container making sure to inspect the components for damage that may have occurred inside the packaging materials.
   c) If you find any damage, please contact the carrier and mk North America, Inc.
   d) Lastly, check the contents against the packing slip provided by mk for any discrepancies. If you should find any, please contact mk North America, Inc.

2) Locate your ordered items
   a) Each mk conveyor will ship in its own custom built container, carefully packaged in the most economical way.
   b) Review the packing slip against your purchase order.
2 DECODING YOUR SERIAL NUMBER

- The conveyor’s serial number is located on the frame at the drive end of the conveyor; it is affixed to the black drive train cover which has the gearmotor mounted to the back plate.
- If there is no black drive train cover, the serial number is affixed to the frame.
- See image below for label example.
- **YOUR SERIAL NUMBER IS ON THE FRONT COVER OF THIS MANUAL.**
- We have provided an area in the back of this manual for you to add any notes about this unit.

<table>
<thead>
<tr>
<th>Serial #: 321456</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date: 10/2/10</td>
</tr>
<tr>
<td>Type: DGF-P 2001</td>
</tr>
<tr>
<td>DWG #: 5AA.01.1552</td>
</tr>
<tr>
<td>SO #: AM-34123</td>
</tr>
</tbody>
</table>

**Serial #:** This number is unique to this item. With this number we can access all of the original order details.

**Date:** This is the date that the unit was scheduled to ship.

**Type:** This description refers to the type of unit that is associated with the particular serial number. The type should NOT be substituted for the serial number when inquiring.

**DWG#:** This number, if applicable, refers to the specific drawing that was created for this unit. Not all orders require a drawing and therefore in some cases no DWG# is assigned. If your DWG# field is blank it is not a cause for concern.

**SO#:** This is the shop order number in which this unit was built. This is an mk North America, Inc. internal number. This number is also referenced on any related invoices, etc.
3 CONVEYOR DESCRIPTION

3.1 Conveyor Description

1.) Explaining the type of conveyor:

DGF-P 2001

Series 2001 profile frame

2.) Designations:

DGF - P

"Profile"

Style of Conveyor

DGF (Doppel-Gurt Foerderer) Dual-Belt Conveyor
GUF (Gurt Foerderer) Belt Conveyor
KTF (Kettengurt Foerderer) Chain Conveyor
KFG (Knickfoerderer Gurt) Bent Belt Conveyor
KGF (Kurvengurt Foerderer) Curve Belt Conveyor
MBF (Modulband Foerderer) Modular Belt Conveyor
RBS (Rollerbahn Schwerkraft) Idler Roller Conveyor
SBF (Scharnierband Foerderer) Hinged Belt Conveyor
SRF (Stauollen Foerderer) Accumulating Roller Conveyor
3 CONVEYOR DESCRIPTION (CONT.)

3.2 Conveyor Components

The DGF-P 2001 has many typical conveyor components. Below is a description of the basic parts and options for the DGF-P 2001 conveyor. The items you receive will vary based on your actual purchase order. Items may appear different on your model based on your particular order requirements. Consult your approval drawing for specific items included in your order.

Typical Components
1) Conveyor Frame
2) Idler End
3) Gearmotor Mount/Drive Assembly - serial number plate mounted here
4) Gearmotor
5) Belt
6) Controller (Not shown)
7) Side Rails
8) Support Stand
9) Stand Stringer
4 WARRANTY INFORMATION

Warranty

mk North America, Inc. (MKNA) offers a COMPLETE ONE YEAR WARRANTY from the date of delivery, to the original purchaser of the MKNA equipment (CUSTOMER), to be free from defects in material and workmanship; under normal use and with proper installation, maintenance and cleaning.

Additionally MKNA offers a LIMITED 10 YEAR WARRANTY on all equipment that MKNA is the original manufacturer of, to be free from defect and workmanship.¹

This warranty is extended by MKNA only to CUSTOMER, and is non-transferable. All warranty requests shall be made by CUSTOMER.

MKNA will replace or repair, at our factory or any other location we designate², any defective part within the warranty period and without charge. It is at MKNA's sole discretion whether to repair or replace. CUSTOMER will provide MKNA with a prompt written notice of the defect, including the serial number of the unit (when applicable) and the date of delivery.

At MKNA's request CUSTOMER will return all defective parts for evaluation at MKNA. MKNA will provide CUSTOMER with a return goods authorization number (RGA#). No parts will be returned without a RGA#. The RGA# must clearly be marked on all labels, packages and packing slips.

CUSTOMER shall pay all costs for packaging, shipping, duties and/or any other related costs in the sending or receiving of parts. CUSTOMER is responsible for all labor associated with sending or receiving of parts.

MKNA PROVIDES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE; UNLESS IT IS AGREED TO BY MKNA AND CUSTOMER IN WRITING PRIOR TO PLACEMENT OF ORDER. Such agreement requires approval of MKNA Management.

UNDER NO CIRCUMSTANCES SHALL MKNA BE HELD LIABLE FOR DAMAGES OR LIABILITY FOR LOSS OF PRODUCTION, PRODUCT, EQUIPMENT OR PROFITS OR LIABILITY FOR DIRECT, INCIDENTAL, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES OR ANY DAMAGES TO PERSONS OR PROPERTY, WHATSOEVER. CUSTOMER agrees that it is their sole remedy for liability of any kind, including negligence with respect to the equipment and services furnished by MKNA shall be limited to the remedies provided herein. This warranty shall not apply to any failure of the unit or its components caused by lack of maintenance and/or improper maintenance, incorrect adjustments, misuse or unreasonable use or exposure to chemicals and/or environments which the unit is not designed for. Unauthorized modification of the unit or the use of non-MKNA replacement parts and building components voids this warranty.

¹ The limited 10 year warranty does not apply to equipment and components manufactured by others. Such equipment and components are subject to any limitation contained in the original manufacturer’s warranty and include, but are not limited to: bearings, belts, casters, controllers, motors and pneumatic devices.

² No work will be performed by MKNA or an MKNA factory authorized service representative at the site of installation unless in MKNA’s opinion it is impractical for Customer to remove and return the defective part to MKNA’s factory.

EXCEPT AS EXPRESSLY STATED HEREIN, THERE ARE NO WARRANTIES, EXPRESSED OR IMPLIED, BY OPERATION OF LAW OR OTHERWISE, OF THE EQUIPMENT OR SERVICES FURNISHED BY MKNA OR FACTORY AUTHORIZED SERVICE REPRESENTATIVE. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE HEREOF.

mk North America, Inc. reserves the right to change, modify or discontinue products and/or specifications with or without notice.

All of mk North America, Inc. products are covered by this warranty.
5 SAFETY REQUIREMENTS

5.1 Warnings - Safety Guidelines

READ AND UNDERSTAND ALL OF THESE WARNINGS PRIOR TO OPERATING EQUIPMENT.
5 SAFETY REQUIREMENTS (CONT.)

**WARNING**

Injury is possible if the stands are not lagged to the floor, cross ties are not used, or angle braces are not present. Never place a conveyor in operation until all proper mounts are installed and secured. It is the end user’s responsibility to ensure that the support system is safe and secure.

**WARNING**

Never operate equipment unless all operating instructions are understood and all guards, interlocks, covers, safety devices or circuits and protective components are functioning properly.

**WARNING**

Never operate or service this equipment if under the influence of alcohol, drugs or other substances or conditions which decrease alertness or judgement.
6 WEAR ITEMS & MAINTENANCE

6.1 Important Notes About Wear Items & Maintenance 11
6.2 DGF-P 2001 AC 12
6 WEAR ITEMS & MAINTENANCE FOR SPECIFIC CONVEYOR TYPES (CONT.)

6.1 Important Notes About Wear Items & Maintenance

The following information regarding life of the wear items and service or adjustment intervals of the functional elements are only GUIDELINES. Conveyors are application-specific products whose life expectancy can vary depending on their relative loads and speeds, and which can be significantly influenced by environmental factors.

- All moving components and screw connections should be checked every 6 months.
- All safety-relevant components should be part of a regularly scheduled weekly inspection.
- The proper function of these components must be confirmed at all times.
- Do NOT operate conveyors if safety-relevant components are damaged or missing.

7 CONVEYOR MAINTENANCE - GREASING & TENSIONING OF DRIVE CHAIN

All work to be performed by qualified personnel only.
Conveyor power must be disconnected before performing maintenance.

7.1 DGF-P 2001
## 7. CONVEYOR MAINTENANCE - TENSIONING & GREASING OF DRIVE CHAIN (CONT.)

### 7.1 Greasing & Tensioning of the Drive Chain

<table>
<thead>
<tr>
<th><strong>Procedure</strong></th>
<th><strong>Image</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Remove screws and remove the chain guard.</td>
<td><img src="image1.png" alt="Image" /></td>
</tr>
<tr>
<td>Loosen the mounting screws of the motor and lower the motor in the direction of the arrow, adding tension to the chain. Do not over-tension the chain. Proper chain tension should allow between Replace chain guard when done.</td>
<td><img src="image2.png" alt="Image" /></td>
</tr>
<tr>
<td>Remove chain guard as described above. Apply lubricant, as called out in Section 6, with a brush to the chain edges in order for the lubricant to penetrate the chain completely.</td>
<td><img src="image3.png" alt="Image" /></td>
</tr>
</tbody>
</table>

*Reassemble in reverse order; ensuring all screws are tight and all guards are in place before operating.*
8 CONVEYOR MAINTENANCE - BELT TRACKING, TENSIONING & REPLACEMENT

All work to be performed by qualified personnel only.

Disconnect power before replacing the belt.

Tensioning and tracking is done while the conveyor is in operation. Use extreme caution of all pinch, pull and other hazards.

General Remarks:

• Belts may need to be tracked due to shifting during shipping.
• Prior to delivery of the mk conveyor, the belt was tensioned and tracked at the factory.
• Belt pretension conveyor length = chain length x 0.1%.
• Belt tracking should only be done at the idler end.
• Avoid over tensioning the belt, increase slack in belt is necessary.
### Belt Tracking & Tensioning

**Caution!** Tracking should be done with the conveyor running. Use caution of moving parts.

*Belt tracking and tensioning is only to be done at the idler end (opposite the drive end).*

Loosen nut (2) and move plate (1) in arrow direction to tension the belt. Tighten nut (2).

For tracking, loosen nut (2) and, while holding the nut/plate in position, use a screwdriver to turn the bolt (3) to track the belt. Tighten nut (2).

### Belt Replacement

**Caution!** Conveyor power should be disconnected prior to replacing belts.

Belts should be removed and replaced from the outside of the frame.

Loosen nut (2) and screw (3) and push idler assembly (1) inward (arrow direction) to loosen belt. Retighten nut (2) and screw (3). The belt may now be removed and replaced.

Follow above instructions for tracking and tensioning of the belt prior to use.
